Join us at Riverside Restaurant to help kickoff the Captina Creek Birding Trail, a do-it-yourself driving tour with informational signage at five birding stops within the Captina Creek Watershed. Visitors can receive information about the new Birding Trail and local birding opportunities before visiting some or all of the sites along the birding trail. Afterwards, birders can return to the restaurant to enjoy a meal and interact with other birding enthusiasts! Participants will also have the chance to win gift cards, birding supplies, and other exciting items from our door prize giveaway!
